

<u>AGENDA ITEM</u>	<u>DECISION/PROPOSAL MADE</u>
EU regulation update: warning triangle size for hair dyes	No mandatory size specifications
EU regulation update: 1) Safety assessment Guidelines 2) Reporting of serious adverse events 3) Common criteria for claims 4) Adaptation of regulation: Annexes 5) Notification of nano-materials 6) Use of CMR substances as cosmetic ingredients	To review after EU issues reports in 1st half 2011
Pilot risk assessment of botanical ingredients	To be used as a guidance document under the ACD. Member countries want further internal consultation and will report back before end March 2011
Annex II/III feedback	The meeting agreed further clarification is required on the EU legal interpretation of the Annex II classification of the 495 ingredients. Secretary will seek clarification with EU commission by end January
"Slimming" as a product name	The meeting agreed the decision should be made at the national level taking into account the whole product presentation, local language, culture and individual government enforcement policies
Clarification of ACD Annexes	Clarification of several ingredient annexes had been sought by Member Countries. The meeting agreed that : 1) ACSB Secretary will rectify simple typos, duplicate entries, etc. 2) Technical issues would be tabled for further discussions at the next ACSB meeting

Annex III Part 2: extension of deadline	The meeting agreed to extend the deadline to 31 December 2011 to enable products containing these ingredients to remain on the market legally until a final decision on their status is made in the EU
AHA regulation	1) Clarification was provided for the meaning of common salts (sodium & potassium) and simple esthers (methyl, ethyl, propyl) 2) AHA concentration bands were amended to make the limitations mutually exclusive
Decision tracking form	Format of decision tracking form adopted by the ACSB
Phthalates	The meeting discussed the current regulation of phthalates as cosmetic ingredients in ASEAN and agreed that no change was required
Azelaic acid	The meeting discussed the transfer of Azelaic acid from Annex II to Annex III Part 1 with a maximum concentration of 10% for leave-on and rinse-off products for the face and scalp. ACSB Members to review data and give feedback to ACA by end March 2011
Fragrance labelling	The meeting discussed the adoption of the labelling provisions of 2009/134/ec (Annex III Entries 67-92). The meeting agreed to review the proposal and impact to their industry. Feedback to be provided to Singapore by end April 2011
Accessibility of decision on borderline products	The meeting agreed that a record of the decisions made by ACSB/ACC on product classification and their rationale should be attached to the ASEAN Claim Guidelines for record purposes.
ACSB Secretary	The current ACSB Secretary will be resigning from his post in June 2011 after the next ACSB meeting. ACA is tasked with providing a replacement as per the TOR of the ACSB
